PROFILE

Motivated BSc Biology graduate with strong technical skills in web development and computer applications. Proficient in HTML, CSS, and JavaScript with hands-on experience building responsive web projects and integrating third-party APIs. Combines a scientific research mindset with creative front-end development to deliver clean, functional digital experiences. Seeking an entry-level web developer role to contribute to organisational growth while continuously expanding technical expertise.

PROJECTS

PERSONAL PORTFOLIO WEBSITE

WEB DEVELOPMENT | CODEWITHAMIT.ONLINE

- Designed and developed a fully responsive portfolio using HTML5, CSS3, and JavaScript.
- Implemented modern UI/UX principles for an engaging, professional user experience.
- Deployed on a live server and managed via GitHub for version control.

SMALL BUSINESS WEBSITE DEVELOPMENT

CLIENT WEB PROJECTS

- Built custom websites for local businesses with tailored design and functionality.
- Integrated third-party APIs to enhance interactivity and real-time data handling.
- Ensured cross-device compatibility through responsive design techniques.

API INTEGRATION APPLICATIONS

TECHNICAL IMPLEMENTATION

- Developed small-scale apps consuming external APIs for real-time data exchange.
- Applied JavaScript for dynamic content rendering and UI enhancement.
